Admin & Lead Features

For Team Leads & Admins

Everything in the Budtender guide applies to you, plus these admin tools accessible from the top of your dashboard:

ADMIN TOOLS

- **Points Report** — View everyone's weekly and all-time points. Export to CSV for AIQ loyalty updates.
- **Team Stats** — See performance metrics across the whole team with a "view as" dropdown.
- **Import Stats** — Upload weekly Dutchie reports to update budtender stats.
- **Product Catalog** — Sync products directly from Dutchie POS with one tap, or upload a catalog file manually. New brands are automatically detected and flagged on the dashboard.
- **Trivia Admin** — Add new trivia questions at any difficulty level.
- **Invite Team Members** — Send login invitations to new staff members.

AUTOMATIC SYNCING

The app is connected to Dutchie POS and syncs automatically:

- **Daily at 7am** — Product catalog and inventory sync. New brands are auto-detected and show up in the "New Products This Week" banner. Out-of-stock items are marked as temporarily unavailable.
- **Weekly on Mondays at 7am** — Team performance stats sync from Dutchie transaction data.

HOW LEAD POINTS WORK

You automatically earn **1/3 of every point your budtenders earn**. When your team is active and engaged, your points grow too. There's no weekly cap on lead points — your rewards reflect how well you're building the team.

LEADERBOARD

The dashboard leaderboard shows the top 3 budtenders by points each week. Leads and admins are not included in the leaderboard — it's a budtender competition.
